Miss CH-Lippideout

PACKET 30 SEEDS B CENTS. (SEE DESCRIPTION.)

THOSE who receive a copy of this book have either seut an order the past season for my Flower Seeds, or their names have been sent me by some friend who said they were interested in beautiful flowers. If you wish copies sent to friends who have never planted my seeds, I will do so with pleasure, on receipt of their address, FREE of charge.

QUANTITY OF SEED IN A PACKET. Customers will please note my NEW DEPARTURE in by any other seed house; which will enable those wishing to plant borders and beds of a certain length or size to calculate the number of packages required — FULL COUNT GUARANTEED. NO LESS QUANTITY THAN A PACKET CAN BE SOLD. This innovation of stating the number of seeds in a packet, I introduced last season; and from the number of commending letters received from patrons, it appears to fill a long felt want.

HOW TO REMIT MONEY. Always send money by one of the following methods: Post Office Order, the order is lost or stolen, your money is safe - I especially request my castomers to remit money in this way, and I will allow you to select seeds to the cost of the Money Order, Registered Letter or Draft. Do not send Postage Stamps, unless you have no other way of remitting amount; and when you do-Register them. If money is sent in any other way than specified above, it is at the risk of the sender.

POSTPAID. All seeds sent postpaid and safe arrival guaranteed; all orders received to the amount of \$1.50 and upwards, will be forwarded by Registered Mail to purchaser's address.

SPECIAL PREMIUM. On all orders amounting to 25 cents or upwards (no matter what is ordered). I will add a of charge, having made special arrangements with celebrated growers in Europe the past season for this purpose, and you can depend upon getting something beautiful and of value.

Be sure and write your full address, and write it plainly.

I receive, as does every other firm doing a large mail business, a great many letters that are deficient in the address of the writer. Some are unsigned, in some no post office is given; and in others both name and post office are omitted. The best I can do with such a letter is to file it away and wait for a complaint from the sender, and often the same mistake or omission is repeated in the letter of complaint. I have many letters of this description and would be glad to fill the orders if I knew the addresses of the senders.

FLORAL CULTURE. Revised Edition, by Miss Lippincott, containing full cultural directions and points now TO GROW FLOWERS from seed, FREE as a premium if your order amounts to 50 cents and you request it on the order, or you can get it for 10 cents additional.

IPPINCOT

MINNEAPOLIS,

The Love of Flowers_

is steadily increasing among the people, and the cultivation of them, which is a thing very different from the sentiment of admiration, has become so common that it is considered as an evidence of bad taste for one having any ground NOT to have flowers about the dwelling house, as they are one of the attractions of a refined and beautiful home, and brighten and adorn the most humble.

ROBERTS says: What a dreary, desolate place would be a world without a flower. It would be a face without a smile--a feast without a welcome. They are pretty lessons in nature's book of instructions, teaching us that we liveth not by bread or from bread alone; but that we have another than an animal life.

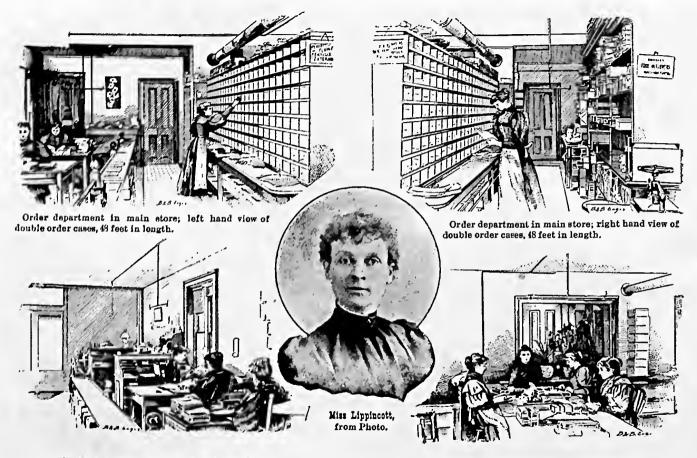

PAXTON says: Flowers are of all embellishments the most beautiful.

BEEQHER says: Flowers bring what money often fails to bring—refinement and pleasure.

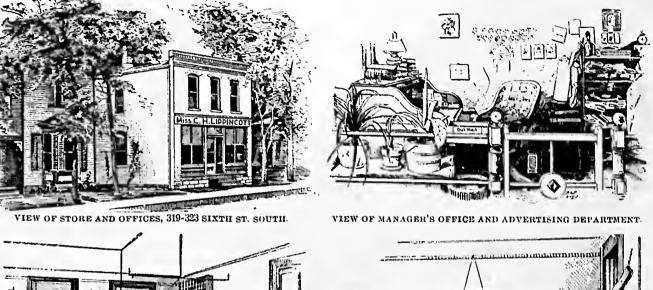

MATHEWS says: Let us have all the flowers we can possibly afford; they are the veritable smlles of nature.

Yours for beautiful flowers, JANUARY, 1896. MISS C. H. LIPPINCOTT.

A FEW SNAP SHOT VIEWS OF DIFFERENT DEPARTMENTS FROM PHOTOGRAPHS.

PACKET AND COLLECTION DEPARTMENT.

Abutilon. ABUTILON, (FLOWERING MAPLE.)

A very popular percential shrub with bellshaped, drooping flowers; well adapted to house culture, easily raised from seed, and if sown before April, under glass, plants will bloom the first season. For winter flowering, plant in September. Finest mixed. Pkt., 20 seeds, 8 cents.

CRAB'S-EYE VINE, (ABRUS PRECATORIUS.)

A most beautiful climber, either for pot culture or the open ground in summer; bears clusters of bright yellow flowers, followed by bunches of pods, which, when dry, hurst open, disclosing brilliant red seeds with black eyes, used for making beads and other ornaments, for which purpose they are exceedingly pretty. Pkt., 10 seeds, 6 cents,

Miss Ora L. Lake, Knexville, Tewa, May 7, 1895, writes:-I planted some af year seeds has spring and never saw seeds that grew belter, or mere thrifty plante.

Acroclinium.

ACROCLINIUM, (EVERLASTING.)

One of the most beautiful and valuable of the everiasting flowers, called by some "Plak Dalsles," very effective in borders during the blooming scason, and possesses the additional advantage of being available for winter decoration, for which purpose it is now extensively grown. The densely double flowers are faultless both in shape and color; the flowers arc somewhat larger than the single, and, from the seed I offer, about 75 per cent. will be double. On first unfolding the flowers show a charming rosy hue, fading into a delicate pink at a later stage. The useful an everlasting as the Acroclinium undoubtedly is, needs no comment. Pkt. 50 seeds, 4 cents.

J. H. Ladd, Lock Levin, Canada, Jaanary 30, 1895, writes: Seeds recoived from yeu last year in every way gave satisfactioa, and growa aleng side of seme from the best Canadina and American seedsmen, impressed me very fayoraby with their vigality and truthfulaese sf variety.

Mrs. L. H. Fowler, Kirkwood, Del., April 29, 1896, writes: The seeds purchased from yeu last year were very satisfactery.

Ageratum. AGERATUM.

rapld succes-A plant that blossoms constantly all summer in the garden and makes a pleasing contrast of color with more slon-and tho brilllant varieties. I offer seed of the new Imperial Dark end is not yet. Blue as best and most showy. Pkt., 200 seeds, 3 cents,

ACACIA, FARNESIANA.

Ono of the most beautiful plants in cultivation, having Phillips, 10 Park delicate, fern-liko follago and charming yollow, tassel-liko St., Rutland, Vt., flowers of the most delicious fragrance. It is one of the March 23, 1895, most easily cultivated of greenhouse plants, and sufficient- writes: I was ly hardy to withstand the winter in a temperature very little higher than freezing point. Seeds should be sown in sandy peat, about 14 Inch deep, in a temperature of 55 deg. to 60 deg. sults them well. Pot of when large enough to handle, and place in a cool, close plt or house until quite last year; have a established. Pkt., 10 seeds, 6 cts.

Mrs. Ellen Warner, Hamlet, N. Y., Mch., 24, '95, writes:-I have been your customer for three seasons and have found you to be punctual and your seeds proved in every respect satisfactory.

Mrs. H. W. woll pleased with the seeds bought of you nice Primrose in blossom, also some lovely Carnations.

deavor

Alyssum, Little Gem.

ALYSSUM, LITTLE GER.

The plants are very dwarf, oneh spreads so as to completely cover a circular space twelve to twenty inches in diameter. They soon become ono mass of white, remaining in full bloom from spring to fallbeing densely studded with the beautiful miniature splkes of dellelously fragrant flowers. Pkt., 150 seeds, 4 cents,

ALYSSUM, SWEET.

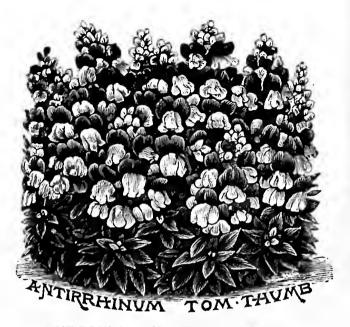

Its pure white, fragrant flowers are produced from early spring till kliled by frost, very useful in all kinds of bouquets. NOTE.-For a Cemetery Plant, nothing is more sultable than Sweet Alyssum-requiring but little earo and attention, and a contlnuous bloomer throughout the summer. Pkt, 200 seeds, 3 cents,

ANCHUSA CAPENSIS.

A hardy annual of more than ordinary beanty. It grows about two feet high, branching freely and bearing a profusion of the most lovely llowers, similar in all respects to the forget-me-not, though the blooms are much larger and of finer color. It is always taken for a beautiful, large-llowering Forget-me-net, and for bouquets and cut flowers it is indeed superior to it. Its color is a deep, clear, brilliant blue with a pure white eye: one of the rarest and most levely shades of (hat color. It hooms carly and continues all summer. Pkt., 100 weedw, 3 cents.

Mrs. James H. Harte, Coeur d'Alene, Idaho, March 11, 1995, writes:-The seeds received from you last senson gave us very good satisfaction.

ANTIRRHINUM, TOM THUMB, (Snapdragon.)

If these members of the flower-loving fraternity who have failed with heuseplants would try the cultivation of some of our hardy out-doer flowers as potplants, such as Antirrhinum, they would have little reason to complain of non-success. Many of the so-called annuals will keep up a succession of bloom for one, two and even three seasons with proper care to keep them from ripening seed, and under this treatment will bloom much more profusely, and produce much finer blossoms than if grown in the open air in the usual way. Being hardy, they can better endure ceausional neglect and the dry atmosphere of the house than can more tender plants, and are not so llable to be injured by insects. Tom Thumb is the best of all the Antirrhinums, very dwarf, growing only S inches high, thickly studded with beautiful spikes of gay colored flowers, orange, scarlet, rosc-white, maroon, striped, etc. Pkt., 250 meedia, 4 cents.

AMBROSIA.

A hardy anuual with iong spiral stems, bearing an abundanco of small, round, greeuish-yeliow buds and blossoms which are exceedingly fragrant. It is as desirable as the Rose Gerauium as a plant with fragrant foliage, aud for making np into bonquets and other fioral work. Its long, beantiful, fringy spirals of lovely green are unsurpassed. It is one of the easiest plants to grow, and seed may be sown early in the open ground. Pkt., 250 seeds. 6 cents.

AMARANTHUS, GIBOSUS.

A very handsomo annual, ornamental foliage plant with long drooping panieles of purplish-red liowers, frequently 2½ feet in length. But few flowers will attract more attention, being useful in many situations as the back-ground of a flower bordor, ornamental hedge, or a bed on the lawn. Pkt., 100 seeds, 3 conts.

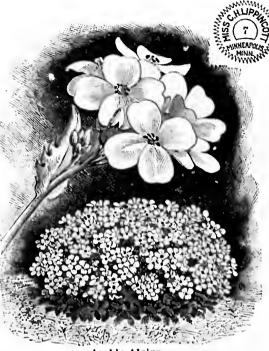

AMARANTHUS SPLENDENS, (RAINBOW PLANT.)

The plants grow from two to three feet high, and in the fall the leaves turn to the most brilliant colors, prosenting a display that few plants can equal. Pht., 100 seeds, 4 conts.

Miss Emma Sieling, Elkhorn, Ills., Jan. 81, 1856, writes:-I was very well pleased with the seeds bought of yea last year, especially the Petunias and Phlex-they were worth the mency alene.

Mrs. A. O. Sceett, Durbin, N. Dak., April 13, 1805, writes:-This is the third year I have sent to you for seeds, and I am very much plensed with the seeds and prices and recommend them whenever I have a chance.

Mrs. Dave Zigler, Plymouth, Ohio, April 16, 1956, writes: The seeds 1 received from you last year gave good setisfaction. The Olnerarias were beautiful and the question was asked almost dully-where did you get the seed? I respended by shewing them your nest and handsom little Catelegue.

Arabis Alpina.

ARABIS ALPINA.

The pure white flowers grow so uniform and thickly that it gives the effect of a sheet of snow. Plants perfectly hardy. The oarliest, pretiest spring flowor. The spreading tufts are densely clothed with neat, lively green leaves and covered with pure white flowers of the most lovely effect, conspleuous in great distance, especially in large masses on rockeries or bread edgings for parkroads, having the advantage of braving the greatest drought during summer, and always looking neat. Pkt., 150 seeds, 6 cents.

Magnificent flowers, massive and showy, with regular over-lapping petals clear to the center. The flowers measure four inches and over across, and are of rich and varied colors. The plants grow very evenly, pyramidal in form, about 18 inches high and curry from twenty-five to forty flowers. Over twen-ty colors; mixed. Pkt., 50 sceds, 6 cts.

VICTORIA-snow white. Pkt., 30 seeds, 8 cts. VICTORIA-bright pink. Pkt., 40 seeds, 6 cts. VICTORIA-dark crimson. Pkt., 40 seeds, 6 cts, VICTORIA-purple. Pkt, 40 seeds, 6 cts.

ASTER.-Finest mixed of all the best varieties. Pkt., 75 seeds, 8 cts.

Mrs. H. M. Kutch, Port Olinton, Pa., Apr. 8, '95, writes .- I have lovely Primroses in bloom from seed I bought of you last yoar.

One of the most perfect and deservedly one of the most popular of all asters; very double, large and beautiful flowers, with incurved petals; height, 18 inches to 2 feet; nearly thirty distinct colors mixed. Pkt., 50 seeds, 6 cts.

PERFECTION-snow white. Pkt., 30 seeds, 8 cts. PERFECTION-pink ball. Pkt., 40 seeds, 7 cts. PERFECTION-crimson ball. Pkt., 40 seeds, 7 cts. PERFECTION-purple. . Pkt., 40 secds, 6 cts.

ASTER .- Good mixed, many bright colors. Pkt., 30 seeds. 3 cts.

Mrs. H. D. Blanchard, Portlandville, N. Y., Mch. 1, '95, writes:-The seeds I had of you last yoar were very satisfactory indeed. I have taken more pleasure is growing the Chinese Primrose (from seed) than any plant I ever grew-they are very free bloomers.

Harlequin Aster.

HARLEOUIN ASTER.

A striking Aster of great heanty, upright habits and profuso bloomer. This new race produces odd flowers of the most handsome and attractive appearance, and continues in bloom a long time. In the gardens of Paris they are considered tho most valuable of all varieties on account of their long duration in bloom and remarkable bright and conspicuous colors. Composed of pure white petals quaintly intersperced, in irregular manner, with deep blue and bright rod petals. Pkt., 40 seeds, 8 ets.

NEW WHITE BRANCHING ASTER.

The magnificent, large, double white flowers, quite four inches in diameter are borne upon long stems, making them excellent for cutting. It is quite different in several respects from any Aster known, and it is only necessary that the character of the plant should be known to make it a favorite with amateurs and ilorists. Pkt., 40 seeds, 8 cts.

ASTER-FIRE KING.

The most brilllant Aster ever introduced, and the nearest approach to scarlet yet obtained, a color previously unknown in this popular flower, which for an Autumn show of flowers few others equal. Habit very compact, not moro than twelvo inches in height, with large, beautifully incurved flowers, and makes a charming companion to "Snowball." See illustration on frout covor. Rkt., 40 seeds, 12 ets.

SNOWBALL ASTER.

A most distinct and haudsome variety equally valuable for pot culture and cut flowers. It is a most profuse bloomer, a single plant often producing as many as 25 to 30 pure snow white flowers, globular in form and of extraordinary size. Pkt., 40 seeds, 12 conts.

Vio Bonson, Bondvillo, Vt. Feb. 4, 1895, writes: My Primroses, from seed bought of you last spring, have been full of blossoms for the last four months,

NEW COMET ASTER.

The plants of this now variety aro perfectly true in character, growing 12 to 15 inches high, forming fine, regular pyramida and covered with large double ilowers, as shown in the linetration. The flowers measure from 3½ to 4½ inches in diameter, resombling in shape and artistically curved and twisted petals, the finest Chinese Ohrysauthemums. Mixed colors. Pkt., 30 seeds, 8 ets.

NEW QUEEN ASTERS.

Vory dwarf, bushy plants, growlug from 10 to 12 inches high branching freely, making a deuso, compact bush—excellent for not culture as well as for beddlug. The flowers are of extraordinary size, perfectly double and resemble the iluest Victoria Asters in form. I caunot say too much in praise of this new strain, as no other variety can surpass it. Finest mixed, Pkt., 40 seeds, 6 cts.

Bachelor's Button.

BACHELOR'S BUTTON, DOUBLE.

It has been so perfected that fully 80 per cent of the flowers are double and semidouble; they are also increased in size and present many bright colors and distinet markings which have been hitherto unknown in this old-fashioned favorite flower. Pkt., 30 seeds, 4 conts,

BACHELOR'S BUTTON, SINGLE. Mixed, including dark and light blue. purple, pink, rose, white, etc. Pkt., 40 seeds, 3 conts.

Defiance Balsam.

DEFIANCE BALSAM, (LADY SLIPPER.) The most perfect in form and largest double flowered Baisam yet developed, and by eareful growth and selection has attained a standard that will be found hard to improve. The mixture, which I offer is composed in nearly equal proportions of 8 colors: Rose, Rose White Spotted, Pink, Scarlet, White Tinted Violet, White Spotted, Searlet White Spotted and Purple; each having been grown separately. Pkt., 25 seeds, 6 conts.

BALSAM-Good mixed. A spiendid strain, good colors and large double flowers; not equal to "Deflance." but gives good satisfaction. Pkt., 20 seeds, 3 cents.

annual of rapid growth and easy culture, with handsome eut-leaved foliage bearing attractive green fruits, which change in color as the season advances, to bright searlet striped with white. Pkt., 10 seeds, 4 cents.

BALSAM APPLE.

A beautiful cilmbing plant with apple-shaped fruits, which, if pre-served in alcohol, make a most useful linlment. Pkt., 10 seeds, 3 cts.

BEGONIA VERNON.

One of the most satisfactory pot plants for the house; and a popular bedding plant for the garden or lawn. It blooms with the greatest profusion throughout the summer. Flowers a brilliant orange carmine with bright yellow centers, and the foliage waxy and glossy. It is easily raised from seed, and comes absolutely true. Valuable for bedding and general culture. Pkt., 50 seeds, 6 cents.

BEGONIA.—Tuberous rooted, single mixed. Seed saved from finest colors. Pkt., 50 seeds, 12 cents.

BEGONIA.-Tuberous rooted, double mixed, from the finest and best colors. Pkt., 40 seeds, 1; rents.

CALENDULA, DOUBLE YELLOW.

Flowers extra large and very double, and they are slightly imbricated, while those of the center are incurved like the potals of a Proony. Color, bright golden yellow or orange. From soced sown in the open ground it comes into flower early, and blooms profusely all summer until late in October, and are of the easiest possible culture. Pkt., 75 seeds, 4 cents.

CALENDULA, DOUBLE WHITE.

Similar to the yellow except in color, which is pure white, and flowers smaller. It is equally as free blooming, and the line double flowers are very showy. Pkt., 50 seeds, 4 cents.

Edith E. Wiggins, Exeter, N. H., March 7, '95, writes: I had some of your seeds last year which gave excellent satisfaction.

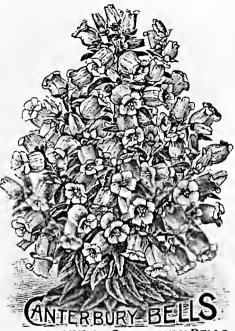

CALLIOPSIS, OR COREOPSIS.

Very handsomo and showy plants of the easiest culturo; require no caro and thrive h any garden. Produce flowers in nearly every shade of yellow, orange, crimson, red and brown. It is one of these flowers which will grow h any situation and always be greatly admired. Alixed colors. Pkt., 200 seeds, 3 cents.

CALCEOLARIA, HYBRIDA.

A favorito and univorsally addited plant, remarkable for their large boautifully spotted blossoms, which are very showy, and from which an almost countless number of hybrids have been raised. They are peronnial, are grown in pots in the conservatory, green houses and gardons. Mixed colors. Pkt., 100 meeds, 12 cents.

Mainel J., Morrison, J.afayotte, Ind., Maroit 7, 1895, writes: The Cinerarias grown from your seed of last fail, are the admiration of our neighborhood.

CAMPANULA, CANTERBURY BELLS.

Woll known popular perennials, producing bell-shaped flowers of many different colors very freely throughout the sur imer. Single Mized, 100 seeds, pkt., 3 cents.

CAMPANULA, DOUBLE MIXED. Pkt., 100 seeds, 4 cents.

Note.—The seed saved from double flowers will always produce some single flowers, no matter how careful the selection.

Mrs. Francis Curtis, Orango, Vt., Feb. 11, '6, writes: The seeds I had of you did finoly-the "Primres's" perfectly lovely and worth more than I paid for the whole. Pansies the handsomest I ever saw-all did well.

CROZY'S NEW DWARF CANNAS.

One of the most popular of bedding plants, while even single specimens are most attractive in the garden. They will bloom the first year from seed, if you suck them in bolling water over night; sow singly in small pots as soon as convenient and grow as rapidly us possiblo. The roots can bokept in the cellar over Winter and each clump will give six to eight good roots for planting out the following spring, Pkt., 8 seeds, 4 ets.

CANNA-Old type, good mixed, Pkt., 10 seeds, 3 cents,

Mrs. John A. Greene, Holena, Ark., March 12, 1895, writes: I have planted your seeds the pust FOUN years and am well pleased with them-all being fresh and good.

Candytuit.

CANDYTUFT-SNOW QUEEN.

A valuable and distinct species of great beauly. It is an apuual variety and grows vory rapidly, quickly coming into bloom re-maining in full flower for about three months. It bears but little foliage, and the mass of white produced makes It useful for borders, Pkt., 100 seeds, 4 cts.

CANDYTUFT-Mixed, all colors. Pkt., 100 seeds, 3 cts.

Mrs. Nowman Jonas, Huntsville, Ala., Murch 8, 1835, writes: This is the Tulup YEAR, I have ordered your seeds and I find them all good.

AN OPEN LETTER .-

Crozv's New Dwarf Cannas

I regret that the limited space in this Catalogue will not admit publishing all the kind words said about the success with my Sords. I have hundreds of commonding letters from every section of the United States and Canada that along would make a hook twice the size of this. I can only thank my friends for their good words and financial assistance by trying my best to supply them with as good Seeds in the futuro as in the past.

Marguerite Carnation.

MARGUERITE CARNATIONS.

This new class of fragrant Marguerite Carnations will bloom in about four months after sowing the seed. The flowers are of brilliant colors, ranging through many bcautiful shades of reds, pinks, white, varlegated, etc., exquisitely sweet and fully 80 per cent. perfectly double. The plants succeed alike in the open garden or in pots. Seeds sown early in the year will give an abundance of flowers in July. Sown in May and kept pinched hack, you will have fine flowers late in the fail until checked by hard frosts. Sown in the autumin, the flowers will he in full bloom early in the spring. Thus, by planting at different sensors flowers can be had ali the year around. Pkt., 50 seeds, 6 cents.

Mrs. D. G. Edwards, 206 Point St., Providence, R. I., March, 1905, writes:--I have used your seeds ever since you began to well them, and they are always good.

CARNATIONS.

Indispensable plants for both pot culture in the greenhouse, wholow garden and open ground culture in summer; of innumerable colors and dellclous perfume. The plants may be set in the open ground during the summer, where they will flower as profusely as when grown in pots in the house. Half hardy percnnials.

Double Mixed, producing many double flowers of all shades and colors. Pkt., 50 seeds, 6 cents.

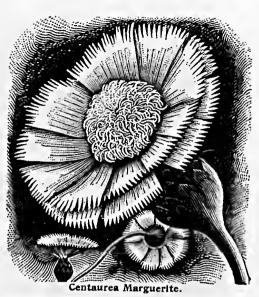

Extra Fine Double filzed, Seeds saved from the finest and choicest German, French, Italian and English stocks. Pkt., 50 seeds, 12 cents,

Grenadin Scarlet, very early, habit dwarf and compact, brilliant double scarlet flowers. Pkt., 40 seeds, 8 cents.

Grenadin White, Double Early flowering white. Pkt., 30 seeds, 8 cents.

Mrs. Ellen Zimmerman, 391 Fairview St., Pottsville, Pa., Mch. 23, 1895, writes: Your seeds of last year tanned ont to be a great success, both in germination and flowering. The Carnations flowered all winter, and at present has 16 buds, 9 of which are open.

Mrs. H. P. Degler, South Superlor, Wis., writes: I have used your scods for two years and had sploadid success. My Primroses arm in blossom from seeds sown this spring, and my Cineraria will blossom soon.

NEW CENTAUREA MARGUERITE.

One of the most valuable introductions of late years. The flowers are the size of a medium Carnation, frecly produced on long stems, which renders them valuable for cutting; color pure white, pale sulphur yellow and lavender. The flowers are swect scented, and their lasting quality after heing cut is remarkable. The plants grow about 18 inches high and arc of the caslest culture; from spring sown seed thoy commence to flower in July and continue untit late in the autumn. This novelty is entirely distinct from all other Contaureas and undonbtedly the most beautiful varlety known. Pkt., 30 seeds, 6 cents.

Mrs. G. H. Norris, Woodcock, Pa., Mnrch 23, '95, writes: I have been vory much pleased with the flower seeds recolved from you. My Cinerarias are in full bloom now and very beautiful.

Cincraria, Hybrida.

CINERARIA, HYBRIDA.

One of the most nonnlar of all green-house plants, and what a splcudid display they make when well grown. I know of no plant so easily grown as the Omeraria. The secret of growing well is to grow fast; never allowing them to receive a check, olther from heing pot bound, dryness of root, or attack of insects; the cooler they are kept the better. In colors they range from crimson, magenta, violet, parple and variegated. Large flowering mixed. Fkt., 50 sects, 12 cents.

CLIANTHUS DAMPIERI, GLORY PEA OF AUSTRALIA.

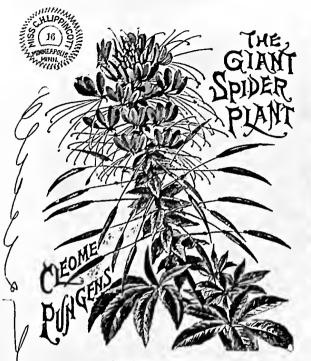

One of the most gorgeous plants in cultivation, with clusters of pea-shaped bright scarlet flowers, each flower marked with intense black spots in the center. Plant grows about three feet bight. Pkt., 12 seeds, 8 cents.

Centrosema Grandifiora.

CENTROSEMA GRANDIFLORA.

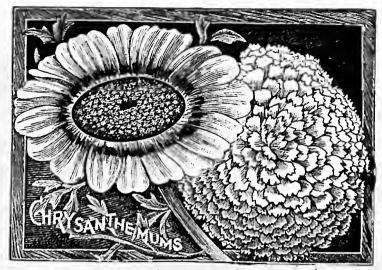

A hardy perennial vine which will bloom in June or July from seed sown in April, and bears in the groatest profusion inverted pea-shaped flowers, from 1½ to 2½ incbes in diameter, ranging in color from a rosy violet to a reddish purple, with a broad featbered white marking through the center, while the large buds and back of the flowers are pure white, making it appear as if one plant bore many different colored flowers at one time. Pkt., 15 seeds, 6 cents.

Mrs. J. E. Saunders. West Peterboro, N. H., March 9, 1896, writes:--I had the finest Pansies and Verbenas from your seed last year that I aver saw,

CLEOME PUNGENS. THE GIANT SPIDER PLANT.

A robust plant, growing vigorously four to five foet high, unaffected by wind or weather, and floworing profusely and continuously for months. In fact, it is a perpotual bloomer, tho splices continuing to increase in sizo as the plant grows, until thoy roach upward of two feet in length. The flowors arovery showy, bright rose color; grows freely from seed sown in the open ground, thrives inxuriantly, and blooms all summer, no matter how unfavorable the senson may be. It is also one of the very best honey produeing plants, and should be planted ilberally by all bee-keepers. Pkt., 100 seeds, 4 cts.

CHRYSANTHEMUM, (OR FRENCH MARGUERITES.)

Annual varieties much grown for cut flowers. The plants grow 12 to 18 inches high and produce on long stems beautiful large flowers of many bright colors. They flower all summer in the garden, and make elegant pot plants for wintor flowering. Pkt., 50 seeds, 3 cts.

CHRYSANTHEMUM, (INODORUM PLENISSIMUM.)

Although a perennial, it flowers abundantly the first year from seed, each plant produeing hundreds of beautiful, perfectly double, snow-white flowers; unsurpassed for bouquets. It remains in bloom all summer, and is in all respects one of the handsomest and most valuable of flowers. Pkt., 100 sceds, 6 cts.

CHRYSANTHEMUM, FANCY PERENNIAL.

From the best Incurved, Pompono, Japanese, Chinese and Anemono-flowered varieties. Seeds sown in the hot-bed in February or March, or even April, will give plants that will bloom in August or Septomber, and cannot full, with proper care, to give magnificent flowers in a wonderful variety of colors and forms. Pkt., 50 seeds 12 cts.

Miss Mollie Cobb, Ronceverte, W. Vn., May 7, 1895, writes: The seeds I ordered from you last spring did better and produced more flowers than any I ever tried.

Coccinea Indica. COCCINEA INDICA.

A remarkably pretty climber. Ivy-like fellagc, bright and luxnriant, never troubled with insects, and admirably adapted for treiliscs, arbors, etc. The small flewers are soon followed by numerons fruits two inches long, which turn to brilliant scarlet, spotted with white, rendering the vine very pretty. Pkt., 15 seeds, 6c.

COBÆA SCANDENS.

Although it does grandly outside, it is also a spiendid house cilmber, and will do well running over windows in the house, and will reward the grower with an abundance of beautifui, large, bell-shaped flowers, green at first, but rapidly changing to a beautifui, deep violet blue. A well established plant will run 30 to 40 feet in a season. Fkt., 10 seeds, 6 cents.

Colcus.

COLEUS.

One of the best known and most universally admired ornamental foliage plants, in an endless variety of colors and shadings, indispensable for ribbon and carpet bedding, or as single specimens. Colons seed germinates easily, and success is as sure as with an ordinary annual. Pkt., 100 seeds, 8 cents,

COCKSCOMB. QUEEN OF DWARFS.

This is the best dwarf-growing Cockscomb; the plants only grow about eight inclus high, are firmly set in the crown with well-balanced, large heads, io to 12 luches across. They grow very uniformly and present an unnsmuly solid effect in color, which is a rich ruby-red of extreme brilliancy, Fkt., 100 seed., 6 cents.

COCKSCOMB-Mixed, Pkt., 100 needs, 3 ets.

COSMOS, HYBRIDUS.

A plant of strong growth, having elegant foliage and for fall blooming has no superior. Seed sown in April or May and transplanted to open ground will produce plants five or six feet high by September, and from then till November will he covered with hundreds of blossoms three inches across, resembling single Dabilas. Plauted in pots and hrought in inside to flower like Chrysanthemums, they are grand. They are of various shades from pure white to purplish crimson. Both foliage and flowers are unsurpassed for bouquets and vases. All colors, mixed. Pkt. 50 seeds. 4 cents.

COSMOS, WHITE PEARL.

Large, pure white flowers, very valuable for florists. Pkt., 30 seeds, 4 cents.

COSMOS, PURE PINK.

Beautifui, large flowers of a clear. delicate pink color. Pkt., 30 sceds, 4 cents.

COSMOS, PURE YELLOW.

This new variety is a clear, bright yellow. A beautiful contrast to the white and pink. The flowers are freely produced, but not quite so large as the others. Pkt., 20 seeds, 6 cents.

CYCLAMEN, PERSICUM.

Well known bulbous-rooted plants, universal favorites as pot plants for winter and spring blooming, producing handsome red and white flowers, with beautiful variegated foliage, in different shades of green. The seed should be sown in the Spring and by Autumn will produce a bulb which will blossom the following Spring. Mixed. Fut. 20 seeds, 8 cents.

CYCLAMEN GIGANTEUM.

Flowers of extraordinary size, and of great substance. The leaves are proportionately large aud beautifully marked. Pkt., 15 seeds, 12 cents.

CYPRESS VINE.

A most beautiful vine with delicate fern-like foliage and beautiful stur-shaped rose, scarlet and white flowers. Seed very slow to start growth. All colors mixed. Pht., 20 needs, 3 cents.

Mrs. E. V. Coloman. Scotteville, Va., April 8, 1895, writes: The seede I got of you inst conson were everything I could wish them to be. Came up quickly, grew rapidly and bloomed freely.

DATURA CORNUCOPIA.

"Horn of Plenty."

Discovered In South America In 1892 by a collector of Orchids The plant is of robust habit, with thick, dark brown-purple, shining stems. The branches are numerous, spreading 3 or 4 feet; thick, large, durk green colored leaves. The flowers are trumpetshaped, measuring 8 to 10 inches In length and 5 to 7 inches across the mouth, and form three distinct flowers growing each within the other, the mouth of corolla is a most delicate white, beautifully marbled with royal purple. A single plant gives from 200 to 300 fragrant blooms during the season, followed by a large thorny seed-vessel, which adds to its beauty; is of the easiest culture; plant at the end of May in a warm, rich soil: can be cultivated as an isolated specimen, in masses, for centers of beds; or to fill barren places, and produces a strlk-ing effect. Pkt., 10 seeds, 6 cents.

DATURA, OR TRUMPET FLOWER,-Mixed.

Large branching plants, producing handsome double and single trumpet shaped blossoms white, bluc, yellow and lilac, of exquisite fragrance. The blossoms open during the uight, remaining open one day and then perish. They bloom freely from seed sown iu the open ground the first season, and the roots can be taken up and kept over whiter the same as Dahllas. Pkt., 15 seeds, 3 cents.

DELPHINIUM, OR LARKSPUR.

Well known annuals of great beauty and remarkable for the richness of their colors, and for large gardens is invaluable. All the brightest and best colors mixed. Pkt., 100 seeds, 3 cents,

DELPHINIUM, FORMOSUM.

A hardy perennial variety, flowers bright blue with a white conter. Pkt., 100 seeds, 3 cents,

Mrs. May Gowing, Joseph, Or., Feb. 22, 1896, writes: The seeds I received of you last yeer were spiendid. The Sweet Peas and Plaks were especially admired by all.

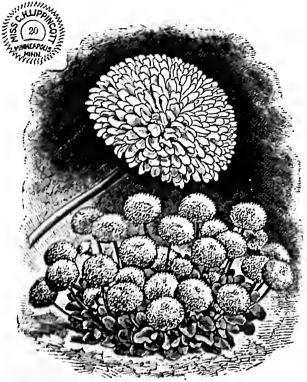

in every particular.

Datura Cornucopia.

Mrs. R. H. Parkman, Foxcroft, Mo., April 1, '55, writes: The Mrs. J. O. Mahon, Maicolm, Neb., Fob. 12, 1895, writes: I have used your seeds for seeds received from you last season proved very satisfactory three years, and having found them highly solisfactory, I have decided to order my particular particular. seed whoily from you this seasoo.

Mrs. John Stewart, West Middletown, Pa., Oct. 4, 1895, writos: My Royal Show Panoles took first promlum at our fair this fall, as also did the Phlor Drummondil, Astors and Petunias (gotton from you) and wore the odmiration of oil.

Snowball Daisy.

DOUBLE DAISY, BELLIS PERENNIS.

Daisies are easily grown from spring sown seed and come into flower in a very short time. The flowers are white, pink, red and variegated. Not all will come double from seed. Finest mixed. Pkt., 100 seeds, 6c.

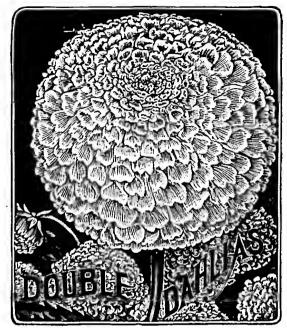

NEW SNOWBALL DAISY.

A beautiful white flowered variety having very long stoms with large double flowers; about 80 per cent of which are extremely double. Pkt., 50 seeds, 6 cents.

DOLICHOS. (Hyacinth Bean.) This beautifuiannual climber should have a place in every flower garden. It is of very rapid g.owth and makesadense attractive screen.blooms later in the season than other varieties. The leaves are both light and dark zreen. prominentiv veined with rcd. the stalk and stoms are dark red. and the large clustersof flowers are of aheautiful deep rose color, while the large shining seed pods are an intense blood-red. Pkt., 12 seeds. 3 cents.

Mrs. Eva Akin, Zeandale, Kaas, Feb. 21, 1896, wrltes: I used your seeds last year with good success.

Millie Otto, Pre-emption, Ill., Jan. 14, 1895, writes: The seeds I purchasod from you last yearwere agrand success.

DAHLIA, DOUBLE.

Everyone knows and admires the Double Dahila, but comparatively few are aware that it can be grown so easily from seed and flowers so beautifully the first scason, that the purchase of builts is a needless expense. Choice mixed. Pkt., 25 seeds, 4 cents.

DAHLIA, NEW STRIPED SINGLE.

The extra large single flowers, quite four inches in diameter. comprise a wonderful variety of colors, beautifully striped, flaked, mottled and dotted in a grotesque and charming manner. Pkt., 25 seeds, 6c,

DIANTHUS OR PINKS

DIANTHUS, OR CHINESE PINKS-BEST MIXED.

One of the mest useful and desirable plants, and for beanty and variety of colors and markings cannot be surpassed, ranglng from pure white to the most dollcate plnk and glowing deep crimson. A bed of these in the flower garden will make a grand display at small cost. The mixture I offer this season is much superior to any proviously offered and includes, besides the standard sorts, all the new and brightest colors in spotted, striped and handsomely fringed varieties of late introduction, I guarantee it will give satisfaction with any other strain offered. Pkt., 100 seeds, 6 ets.

DIANTHUS, OR CHINESE PINKS-GOOD MIXED.

Many distinct and boautiful marked varietles. Pkt., 100 seeds, 3 cents.

DIANTHUS, DWARF FIREBALL.

The most brilliant annual plnk ia cultivation; tho plants are constantly covored with blood-red, perfectly double laciniated flowors until checked by sovero frost. Pkt., 78 seeds, 6 cents.

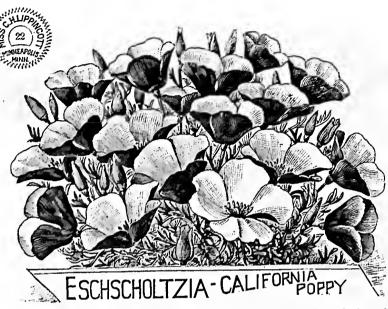

DIANTHUS, DWARF SNOWBALL.

This beautiful dwarf variety belongs to the Heddewigil class of Dianthus. The plants arovery compact dwarf growth and are covored with lovely, spotless, snow-white flowers, very full and double. From its dwarf growth it is very attractive for edgings, while the flowers are also very useful for cutting for boquets. Pkt., 75 seeds, 6 cents.

DIANTHUS, PLUMARIUS. (Pheasant's-Eye Pink.)

Dianthus, Plumarlus, is the old-fashioned Grass Pink. It is perfectly hardy, blooms very profusely in early summer, and is admirable on account of its delicacy, showiness and fragrance. Its use either as a cometery or garden flower is always satisfactory, and these who include it in their seedorder this spring will never have cause for regret. It should be one of the indispensables. Fkt., 100 seeds, 3 cents.

Mrs. Frank A. Fox, Massaboslo, N. H., Maroh H. 1805, writes: I was greatly plensed with your seeds lust your-especially the Asters-they wars lovely; had one plant from the "New Comet" that some blossoms meanured over five inches in diameter. I sold \$10.00 worth of flowers from my garden this spring.

Hardy annual, growing about one foot high, bearing a profusion of riel yellow flowers about two inches in diameter, making a blaze of color in the sunshine and fully as valuable as the common poppy for garden ornamentation, and as easily grown. Pkt., 100 seeds, 3 cents.

EUPHORBIA HETEROPHYLLA. (MEXICAN FIRE PLANT.)

The plants grow two or three feet high, with a branching, bush-like form, with smooth, giossy. fiddle-shaped leaves, which are at first entiroly green, but about midsummer, at the end of each branch appear greenish-white flowers, enveloped in beautiful orange-scarlet bracts, and the surrounding leaves are either blotched with vivid carmine or are earmine with green tips. It is an annual plant, but should be started early so it will have sufficient time to develop its brilliant colors. Pkt., 40 seeds, 6 cents.

EUCHARIDIUM. (BREWERI.)

A protty and showy dwarf summer flowering annual; flowers of a purplish rose shuding to white in the center. Flowers very profusely and is of easy culture. A distinct and truiy elegant plant. Pkt., 50 seeds, 8c.

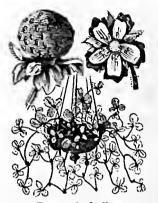

Fuchsia.

FUCHSIA. DOUBLE AND SINGLE MIXED.

Fuchsias are as easily grown from seed as euttings, and from seed many new varieties are obtained. They will flower freely the first year in the open ground, while the plants can be taken in the house in the winter, where they will flower still more freely. The seed I offer has been saved from the very finest double and single varieties. Pkt. 14 seeds, 12c.

Millie B. Winship, Tnnnel City, Wis., Apr. 17, '95, writes: We have tried your seeds for two years and found them very good.

Fragraria Indica. FRAGRARIA INDICA. CHINESE STRAWBERRY.

Hardy perennial, herbaceous creeper, from India, with yellow blossoms, and bright red fruit, like small strawberries. Elegant for rock work or hauging baskets. Pkt., 100 seeds, 6 cents.

Miss Clara M. Sepley, Prespect, Pe., Feb 15, 1805, writes: We were very much pleased with your soeds hast year. The Pensies and Sweet Pens were beautiful eud the Cobie Scandens was just magnificeut: It excited the admiretieu uf all whu saw it. Mrs. M. L. Heyt, 425 Summer Ave., Newerk, N. J., Feb. 18, 1855: The seeds re-

Mrs. M. L. Heyt, 425 Summer Ave., Nowerk, N. J., Feb. 18, 1855: The seeds received from yeu last year were mest sutisfactory, germiueting quickly and producing beautiful and kealthy plants. Mrs. A. O. Graham, Burlingtou, Conn., April 18, 1695, writes: Hayo used your seeds

Mrs. A. O. Graham, Burlington, Conn., April 18, 1895, writes: Have used your seeds for soveral yours and like the SEEDS and PRICES much better than these of other seed houses.

Mrs. R. B. George. Cockrell, Me., Feb. 25, 1985, writes: I received flewer seeds from yen last year aud wish tu say, they preved to be entirely satisfactory.

Cape Fuchsla. CAPE FUCHSIA—PHYGELIUS CAPENSIS.

Plants barely a few inches high bear from 10 to 20 oold, long spikes, completely crowded with shewy scarlet, drooping flowers, persistently produced from May until late Autumn, when they can be brought in for Winter blooming. It is also a good bedding plant, grown singly or in masses. The seed should be sown in a slight hotbed early in Spiring, and the seedlings afterwards transplanted to a warm. sunny position. Pkt., 14 seeds, 12 cents.

Mrs. L. B. Chappell, Emlenton, Pa., Jau, 21, 1895, wrlies · Your Sweet Peas last year were ahead of them ell. Feverfew. FEVERFEW DOUBLE. (MATRICARIA EXIMIA.)

liandsomelarge double whito flowers; a flue beddling plant or for pot culture; as desirable as a good Aster; very free flowering; blooms until frost; helghö 18 inches. Pkt., 200 seeds, 4 cents.

Mrs. C. Matthews, Sheldon, Ills., Jan, 21, 1866, writes: I have used your seeds for two years and find them to be excellent grewers and line bloamers. My flower-beds are a mass of heady each summer.

heady cache summer. Mirs. S. C. Stevens, Fairfield, lils., March 29, 1895, writes: The words to ordered fram you last year gave excellent sullsfaction, germinating very remarkable and giving a wealth of blessems.

Of stout and bushy habit of growth. boaring umbels of large, bright, azuro-blue flowors. with central doublo blooms. Tho plant attains a height of 5 to 7 Inches, with a diameter of 8 to 10 inches, and when fuily grown is quite globular in shaps and perfectly eovered with flowers. This beautiful Forgot-menot is the best for carpet bedding, edgings and massee, and for growing in pots. Pkt., 100 seeds, 4 cts.

Mrs. May Wetmore, Ogden, Tenn., April 19, 1995, writee: I csunot refrain from telling you how fine my Marguerito Carnattous were this wintor and spring from sood I obtained from you hat year. They are us fine, large and fragmant as any 1 have seen in green houses. I grow them in the open ground ulisuummy and lifted them into pots of riol soll when frost came-outting lack to form large heade-and my sitting room window has been the winniration of my friends since Xuuss.

Miss Chara Adams, Coldbrook Springs, Mass., May 4, 1893, writes: The seed 1 had of you lust year for surpessed any 1 ever purchased.

GOMPHRENA.

A desirable everlasting, valued for its handsome globular flower heads, which, lf cut when well matured, will retain their beauty for years. Pkt., 100 seeds, 3 conts.

Mrs. J. F. Monde, Prospect College, High Rock, Lynn, Mass., March 25, 1935, writes: Thie is the third year I have ordered seede from you. I find them nausaally good for euch cheap prices—have paid much more for seede that would not produce near as many plands.

Mre. L. M. Davis, Brownsville, Tenn., Jau. 5: 1825, writee: We had eplendid success with your seeds last year.

Gomphrens.

New Double Gaillardia. NEW DOUBLE GAILLARDIA.

Its large, gay-colored double flowers aro produced most abundantly, without intermission, from July until frost, and are valuable for cutting. The colors embrace sulphur, golden-yellow, orange, amaranth and claret. Pkt., 100 seeds, 4 cents.

GAILLARDIA, SINGLE.

Valuable annuals greatly admired for their fine forms and rich blending of eolors, the gay colored flowers being abundantly produced from July until frost, while they thrive anywhere; single mixed. Pkt., 100 seeds, 3 cents.

Mrs. W. T. Mnguusen. 52 Forest Ave., Fond du Lac, Wie, Fob. 17, 1895, writes: Thu seeds received last season from you produced beautiful flowers of which we were very proud; hud the loveliest sweet peas I ever saw.

Glexinia.

GLOXINIA.

The Gloxinla is a grand flower and makes a lovely pot plant as easily grown and cared for as many of the common flowers. The handsome bell-shaped flowers embrace a great variety of the richest and most beautiful colors, ranging from pure white to dark, blood-red, plnk, blush, laveader, Indigo-blue, marbled and spotted. They will bloom in four to live months from time seed is sown. Fkt., 50 seeds, 12 cents.

GILIA.

A hardy annual, very delicate in leaf and flower, grows in almost any situation in beds or in rockery, mixed. Pkt., 200 seeds, 3 cents.

Mrs. E. W. Gibbs, Mundale, Mass., Oct. 11th, 1835, writes: My Astors were very boautiful, especially the Snowball and Fire King.

Gedetla.

GODETIA.

Beauti ful, hardy annuals, remarkable for the delicacy of their very line large blossoms; flowersdeen rose pink, rosy carmine, snow-wilte, with bright carmine rose snots, carmine crimsen, lilac with purple and white.

Pkt., 200 socds, 3 cents,

GOURDS. ORNAMENTAL.

Tonder, annual climhers, with curionsly shaped fruit in various colors, many of which are peculiarly marked. The folingo is quite ornamental, and many of the fruits being hard-shelled, can be kept for years. Seed should be started in pots in the honse and planted out as soon as danger from frost ls past.

Pkt., 20 seeds, 6 cents.

The most nopular plant grown, either for pot culture la winter, or for bedding out in summer. No flowering plauts are more grown, and certainly none are more suitable for large beds, where a mass of bloom is desired, or for single specimens in pots for the house. But few are aware that they can be grown easily from seed and llower the first season, if sown early, and will frequently reward the cultivator with charming new varieties; lu fact, propagation by seed is the only sure way to obtain new varictles. The sced I offer has been saved from 25 of the finest varieties grown, including Mad. Thehanlt, Mad. Garlleld, Gen. Grant, Cant. Alnsworth, Little Gem, Cloth of Gold, llappy Thought, Snow on Monntain, Adouls, and Beaconsfield; also lacluded in this mixture are 7 varieties of Polargoniums, or Lady Washington; and two lvy-louved varieties. There can be no finer mixed Geranium, and it cannot fall to bring forth some splendld new varieties.

Pkt., 40 woods, 10 conts. Geranium.-Good mixed,

PLt., 30 seeds, 8 cents.

Heliotrope. Its delightful fragrance and duration of bloom, flowering equally well as bedding plants in summer, or as pot plants in the house during winter. Seed sown in the spring makes fine plants for bedding out and are as easily grown as Verbenas.

Pkt., 100 seeds, 6 cents,

HOLLYHOCK, PRIZE DOUBLE.

The perfect doubleness of the magnificent, large flower will please the most critical. All the best colors, from deep yeliow, red rose, light buff, carmine scarlet, flesh eolor, creamy white thited with rose, purple, yellow on dark ground, crimson flaked with salmon, cherry red, cream on violet ground, lilac on brown ground. dark crimson to pure white, also black. If sown early in March or April the plants will bloom the first year. All colors mixed. Pkt., 50 sceds, 6 cents.

Miss Nellie Gerber, Ada, Minn., October 9th, 1895, writes: I re-ceived first promium on your Royal Show Pansies at the Norman County Fair. They were the handsomest cut flowers on exhibition. Alice V. Randell, Gunn Citx, Mo., March 25, 1895, writes: The Seeds I bought of you last your were very fine. My Petunias and Balsams

magnificent

Heuchera Sanguinea.

HEUCHERA SANGUINEA.

Truly a floral gem and one of the mest valuable additions to the list of hardy flowering plants that has appeared in a long time. The foliage, which is overgreen, is benutifully cut and murbled and is vory abundant. The flowers are borne in large, open, cleanstemmed panicles, and are of the most clear, bright, choorful and charming scarlet imag-Inable. Although the flowers are small, yet they are so numerous in each panicle, and the panicies are thrown up in such profusion as to produce a most brilliant effect. Blooming as it does for a period of several weeks. and as each plant frequently sends up a dozen for more stems of its lovely flewers at a time. some idea of its beauty and value can be formed. Pkt., 40 seeds, 8 cents.

Humulus Japonicus.

HUMULUS JAPONICUS. (Japanese Hop.)

One of the most rapid climbors grown, seed can be sown in the open ground in spring and it will attain euermous dimeusions very quickly. The folingo is luxuriant and it is ono of the best plauts for covering vorandas and trollises. liont, drought and lusects do not troubielt. Pkt., 12 soeds, Gc.

HELIANTHUS, SUNFLOW'R

Globosus Fistulosus.

The best and most effective of all annual sunflowers, llowers immense, from 12 to 15 inches In diameter, globuinr and extromely double. For a background to a lawn or a screen to hide unsightly places it is especially adapted. Of easy culture as well as showy. Pkt., 80 seeds, 3 cents.

Helichrysum.

HELICHRYSUM.

A very popular overlasting, large full doubloflowers of various colors, from bright yellow to scarlet, shaded and tipped. Handsome beuquets may be formed of them for winter, if blossoms. are gathered when on the point of expanding. Pkt., 100 seeds, 3 cents.

ICE PLANT, MESERBRYANTHEMUM. A handsome and curlons plant, for hanging baskets, rock work and vasos. The leaves and stonis appoar as though covored with ley crystals and look like rock candy. The whole plant is peculiarly brilliant in the sunshine. Pkt., 200 seeds, 3 cents.

IMPATIENS SULTANI.

This most distinct and bountif al plant is almost a perpetual bleomer. The flowers are of a brilliant rosy scarlet color, and are produced so freely that a full grown specimen appears tobe a ball of flowers, and continues in full beauty sovorul successive menths Pkt., 20 seeds, 8c.

Lobelia. LOBELIA.

A very valuable and heautifui elass of mostly dwarf growing plants; their delicate drooping habit, and the profusion of their charming little blue and white flowers, render them exceedingly ornamental for vases or hanging baskets and rockeries, blooming from June to November, whill for border eultivation they are equally effective. Mixed colors. Pkt., 300 see ds, 3 cents.

LYCHNIS.

A first-class border plant growing from two to three feet in height, bearing close, symmetrical heads of brilliunt scarlet llowers of good alze and substance. If sown ourly in open ground will bloom first scaron. Pkt., 100 seeds, 6 cents.

Linaria.

LINARIA. (KENILWORTH IVY.)

A very pretty and well-known hardy perennial trailing plant, for covering rock work, and very useful for hanging baskets. The flowers are small, but pretty, and for a drooping plantnothing can be better, as it is easily grown from seed. Pkt., 100 seeds, 3 cents.

LINUM. (CRIMSON FLAX.)

Excellent for elumps or edgings and one of the best and most showy hardy annuals for bedding. May be raised in any quantity from seeds sown in March or April, where the plants are intended to flower. They are not at all fastidious regarding soil, doing well in any ordinary garden. Pkt., 50 seeds, 3 cents.

Lantana. LANTANA.

Well known shrubby plants, with clusters of verbena-like flowers, and producing their pink, yellow, orange and white heads in great abundance. They have an agreeable aromatic perfume. Mixed. Pkt., 20 seeds, 4 cts.

LATHYRUS. (PERENNIAL PEAS.)

They do not have the delieious fragrance of the Sweet Peas. but they are equally as beautiful. They are perfectly hardy and live year after year, bearing magnificent clusters of flowers and bloom early in the Spring. Pkt., 25 seeds, 3 cents.

Beile Brownolle, Shushan, N. Y., Oct. 7th, 1895, writes: I find your seeds most oxcellent. My Verbena and Petunia beds have elioited much admiration.

Elderade Marigeld.

MARIGOLD, THE ELDORADO.

The large, bushy plants are each a ball of brilliant colors, many single plants in ving seventyfive flowers in bloom at one time. The flowers are from 3 to 4 inches in diameter, imbricated, and perfectly double. They embrace four shades of color—the lightest primrose, lemon. golden yellow, and deep orange. Pkt., 100 seeds, 3 cts.

MARIGOLD, FRENCH MIXED.

A class of showy and extremely effective plants, with fine double flowers of rich and beautiful colors; very well adapted for largo beds and bordering. Pkt., 100 seeds, 3 ets.

MAURANDIA.

A beantiful, rapid, graceful climber, for green house, purlor, basket, or out-door purposes, blooming profusely until late in the autumn, with rich purple, white and rose, fox-glove shaped blossoms, and will flower the first season, if sown carly. Pkt, 100 greda, 3 cts.

MARVEL OF PERU.

(MIRABILIS.)

A bandsome plant both in follage and flower combined their colors are vivid and of great variety; the flowers open in the afternoon and are sometimes called the "Four O'Olock." It is one of the most brilliant and showy plants that can be grown with little or no trouble. Pkt., 20 seeds, 3 ets.

MINA LOBATA.

Half hardy Moxican cilmbing annual. The buds are at first of vivid red, but turn to orange yellow immediately before they open and when fully oxpanded the flowers are of a creamywhiteshade. Pkt, 12 seeds, 6 ets.

"Belle R. Emery, Hompton, N. H., Jon. 10, 96, writes — I have used your flowor soods for two past years. I have had good success and have found you prompt and honorobie in all your deolings.

Alice Bates Blenchard, Weymonth, Mass., Feb. 27, '95, writes.--I have used your seeds for three years and find them years reliable.

NEW FRENCH DWARF SINGLE MARIGOLD, LEGION OF HONOR.

Leglon of Honor Marigold.

The prettiest of marigolds. Dwarf, compact, and of pyramldal growth, about fifteen Inches higb, with darkgreen, foru-like Jeaves, furnishing a striking background for the bright, golden, stur-like flowers distributed over the surface. The blooms are of medlum size, rich, golden-yellow, with the center of each peth breadly marked with volvety crimson-brown, and with clustering stamens in bright shades of orange-yellow. Blooms abundantly from July until cut down by frost. So easily raised from seed that I strongly recommend it to everyone. Pkt., 100 seeds, 4 cts.

Mignonette, Machet. MIGNONETTE, MACHET. (True.)

An entirely new and distinct sort of grout merit. It is of dwarf and vigorous growth, with massive spikes of deliciously scented red flowers. Pkt., 100 seeds, 4 cents.

MIGNONETTE. GOLDEN QUEEN.

Vory fine variety, with flowers of golden hue; highly effectivo; of dense pyramidal habit and deliciously fragrant. Pkt., 200 seeds, 3 cents.

MIGNONETTE. New GIANT RED.

The flower spikes are of the largest size, unequalled by any other variety, while the color 1s uniform and strikingly distinct red. 1^kkt., 200 seeds, 4 cents.

MIGNONETTE. GIANT WHITE.

Similar to Giant Red in size of spikes, but in color pure white, and is quite showy in growth; not as fragrant as the colored varieties. Fkt., 200 seeds, 4 cents.

MIGNONETTE, SWEET. (Reseda Odorata.) A favorite on account of its fragrance. Pkt., 200 seeds, 3 cents; oz., 10 cents.

Miss Minnie Klein, Balletown, lud., March 27, 1855, writes. The flower seeds received from you last eeason were fine, especially the Sweet Peas and Nasturtiums.

Mrs. Ira B. Hurst, Wagoner. Ind., March 20, 1255, writes: I purchased seeds of you last year; was well pleased. Anyone who r eally loves flowers (for to love them means to care for them) can succeed in growing yours.

Mrs. M. H. Cuddy, Fairfield, Jowa, Feb. 18, 1895, writes: The eeede lordered from you last year were vERY GOOD. I had never tried growing flowere from the eeede before and was quite pleased with my euccess.

Mimulus.

MIMULUS. (MONKEY FLOWER.)

Tender-looking plants, with singular shaped and brilliantiy colored flowers, blotched and spotted in every conceivable manner. Excellent for baskets or vases, while they thrive well in the open garden. if planted in partial shade. Fine hybrid varieties mixed. Fkt., 100 seeds, 3 cents.

MIMULUS MOSCHATUS. (MUSK PLANT.)

A weil-known and favorite plant, both for outside borders and for pot culture in spring. Cultivated on account of the musky odor of the plant. Pkt., 100 seeds, 3 cents.

MIMOSA. (SENSITIVE PLANT.)

An interesting and curious plant. The leaves will close and droep at the slightest touch, or in cloudy, damp weather and during the night. Graceful, fern-like foliage with pink flowers. Mostly grown as a curiosity, not of much value as a flower. Pkt., 12 seeds, 3 cents.

IMPERIAL JAPANESE MORNING GLORIES.

The surpassing charm of these Imperial Japanese Morning Glorles lles In the entraneling beauty and gigantle size of the flowers; they measure from four to slx inches across, and their greater substance causes them to remain open much longer than ordinary Morning Glories. The colors of the flowers, shadings and markings are limitless, and are really wonders of nature, of such incomparable beauty that descriptions are inadequate. Some flowers are of deep, rich, velvety toacs, others more dalatily tinted and shaded than an artist's brush could portray. The solid colors range through reds from soft rose to crimson, bronze and garnet maroon: from daintiest light blue to ultramarine, indigo and blackish purple; from snow-white to cream and silver gray. Some are striped. starred and spotted; others have magnificent edges and throats. The vlucs are of strong and robust growth, attain-ing a height of from 30 to 50 feet. The foliage is most luxurlant, distinct and varied-some viaes have rich vivid green leaves, others have slivery leaves, some with yellow leaves and many produce leaves mottled and checkered like rich mosales of light and dark green, white and gray. The inter-mingling vines and brightly contrasting colored leaves are wonderfully pretty and effective, even when the flowers are not open. The imperial Japanese Morning Glories are of the easiest eniture. Sow early in a warm, sunay position in good, rich soll, and give plenty of water in dry weather. Pkt., 20 seeds, 6 cents.

NEW DOUBLE MORNING GLORY.

About 80 per cent of the seed any be expected to produce double flowering plants as freely as the ordinary Morning Glory; the remainder will'llower semi-double or single. Flowers white, with a slight spot of red or of bine at the base of the large petals. Pkt., 14 seeds, 6 cents.

MORNING GLORY. (CONVOLVULUS MAJOR.) All colors mixed. Pkt., 50 seeds, 3 cts.; oz., 8c.

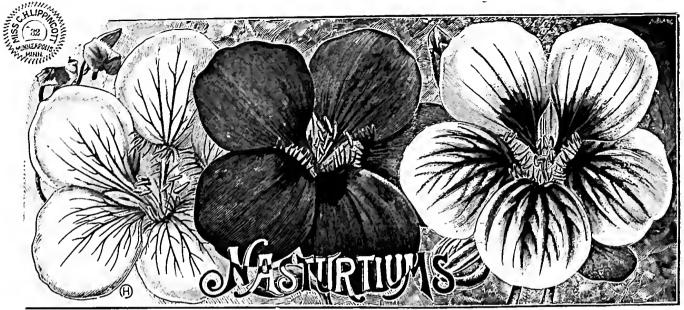

MOLUCCA BALM. (SHELL FLOWER.)

Grows from two to three feet high, scudiag up a strong central stem, which is so completely surrounded by flowers as to leave searcely any room for leaves. The flower is very curious. When cut or broken it emits a strong fragrance of balm. Pkt., 25 seeds, 4 ets.

Sara W. Davis, Giaronilon Springs, Vi., Jan. 25, 96, writes: The Cohum Scandous was grand—the four seads I planted grow and ran on a woven wire trells to the top of the house and were untouched by frest ill Nev. 10th. Just before the freeze I out back one, took it up and potted it, and placed it in my sitting-room window. After a months rest it began growing und looks now us if it might take a place outside.

Stolla Wolf, 366 N. Alabama St., Indianapolis, Ind., Feby. 27, '05, writes: Strangers are we, but frionils, by tho sweet the of fragrant bioscoms. Your thry black seeds brought to me with little inbor and expense, such an abundance of lovely flowers. I must oxienil you my sincers thanks. There were llowers to fill the home with their sweetaes and give a glad welcome to all-flowars to seed as preecings to many that were ill, sorrowing and heartly ladon, and then you could not divers from where they had been down in the form

NASTURTIUMS, DWARF FINEST MIXED.

The best over produced and not surpassed for gorgeousness of colors and brilliancy of effect, embracing every known good sort, including Aurora, Empress of India, Lady Bird, King Theodore, Pourl White. Ruby King, New Brilliant, Yollow and Spotted King. In Dwarf Nasturtiums I consider my special mixed the bost that money can buy, the price may appear high for this strain, but it is made up ospecially for critical buyers that havo the money to spond for THE BEST ONLY. Pkt, 25 seeds, 6 cents; cz., 25 cents.

DWARF NASTURTIUMS, GOOD MIXED.

The same grade as is usually sold, and very fino. Pkt., 20 seeds, 3 cents; oz., 10 cents.

TALL NASTURTIUMS, GOOD MIXED.

Free bloomers and many bright colors, Pkt., 20 sceds, 3 cents; oz., 10 cents.

TALL NASTURTIUMS, FINEST MIXED.

I also offer a special mixture of the Tall, or climbing Nasturtiums, made up on the same basis as the Dwarf Varioty finest mixed, from the best named and brightest colors only. Pkt., 25 seeds, 6 cents; oz., 20 cents.

NEW CLIMBING NASTURTIUMS .- Madame Gunther's Hybrids.

A new section obtained by artificial hybridizing, and distinguished by dark-colored foliage and flowers of a richness and variety of coloring not to be found in any of the different classes of Nasturtiums heretofore grown. Colors in these new hybrids includo various shades of rose, salmon, bright red, pale yellow, etc., eithor self-colored or spotted, mottled, striped and margined. Nothing can equal the georgeous effect produced by their marvolous quantities of bloom borne in uninterrupted splondor from early summer until cut down by frost. Their ease of culturo and the few weeks of timo required to bring them into bloom, the rapidity of growth, and their freedom from insects, should makothem popular. Pkt., 20 seeds, 8 cents.

Nicotiana Affinis. NICOTIANA AFFINIS.

When its large, pure white flowers are fully expanded in the evening and early morning, it has a most striking effect, and so fragrant that n small bod will perfume the whole surrounding atmosphere. If the plants are taken up in the fall, eut back, and potted, they will bloom freely all winter in the house. Pkt., 100 soods, 4c.

NOLANA.

Beantiful trailing plants, almost equal to the Portu-laen for growing in masses, and unsurpassed for baskets, pots, vases or rock work. The flower is similar in shape to a Morning Glory. Pkt., 25 seeds, 3 ots. ORNAMENTAL GRASSES.

All the nnnual varieties mixed, many of them being renily hundsome in growth, and all of thom desirablo for winter bouquets, if cut while green and dried in the shude. Large pkt., 6 cents.

When . . .

A business has been hefore the public for a number of years, and every year in-creased in popularity with the people, It is safe to assume that the business must possess morit of the highest order. or it would not be held in such high esteem. Nover was a seed business in such universai favor with the flower lover as mine is now. and has been for the past six years of its existence. and this popularlty is due to the satisfaction my socds have given -low prices-aud prompt service.

Mrs. C. A. Ball, Vornon Ceater, N.Y., March 5, 1895, writes: The seeds purchased from you last season dld_finely, I raised 18 Primulas (Primreses) from one packet of seed and sold several of them for 20 cents each at cur ohurch floral festival,

Lily McDanel, 709 N. 36th St., W. Phila-delphia, Pa., Feb. 18, 1895, writes; This will be the third year I have used your flower soods and] cordiallyrecommend them to others.

Nigella.

NIGELLA, LOVE-IN-A-MIST.

Hardy annual, known as "Devil-in-Bush," and "Lady-in-Green," because the biossoms are partially concealed by the abundance of ilnely cut follago. The plaut and flower are both hand-some, and require but little care. Pkt, 50 scods, S cents.

CENOTHERA, (EVENING PRIMROSE.)

Saucor-shaped flowers of various colors and enormous size, often as large as a Moonflower; very striking and fragrant. Pkt., 100 soods, 80,

OXALIS.

Exceedingly free flowering little plants, en-tirely_covered with bright flowers from June until September. It is not generally known that these anunal varieties of Oxalis are fully conal for edgings to the variety grown from bulbs. Mixed colors. Pkt., 100 scods, 8 cents,

Specimen Royal Show Pansy. Actual size, 2% inches.

ROYAL SHOW PANSIES

Is a mixture especially prepared by myself from separate strains and colors of all the largest flowering and finest varieties that can be secured in Europe and is unsurpassed in beauty, colorings and markings. Price, Pkt. 50 seeds, 8c.; Pkt., 100 seeds, 12c.

Miss M. L. Brewster, Stottsville, Quebee, Canada, April, 20, 1895, writes: I think your idea of giving the number of seeds ha a pocket a splendid one, and your seeds ore satisfactory in every way. My Bhirley Popples inst year were the admiration of avery one who saw them, and it was hard to believe that beautiful bed of flewers only cost four cents.

Award of Prizes on Royal Show Pansy,

As offered in my Catalogue for 1895.

For the Largest and Finest Flowers Raised from my Seed.

\$25.00,	1st	prlze	to Mrs. D. M. Andrews, Boulder, Boulder Co., Col.
20.00,			Mrs. Jno. Tomlinson, Welis Station, Benton Co., Ore.
15.00.	3d	**	Frank E. Day, Webster, Worcester Co., Mass.
10.00,	4th	**	Nellie S. Ramsey, E. Helena, Lewis-Clark Co., Mont.
5 00,	5th	**	Mrs. H. Blackman, Snohomish Snohomish Co., Wash.
5.00	6th	*6	Jennie Foster, Oxford, Worcester Co., Mass.
5.00	7th	*6	Mrs. G. S. Miller. Deer Lodge. Deer Lodge Co., Mont.
5.00.	8th	**	W. J. Gurney, Gravel River, Ontario, Canada.
5.00	9th	66	Mrs. Eimira Jonkins, Temple, Franklin Co., Maine.
5.00,	10th	**	Mrs. J. E. Timerman. South Bay, Madison Co., N. Y.
Thć	first	prize	pansy blossom grown by Mrs. D. M. Andrews, Bouider,

Col., measured fully 2% inches across and was the handsomest shaped and marked pansy in the entire collection of 303 competitors.

For 1896, I offer \$200.00 in Cash Prizes, for the largest biossoms raised from the seed of my ROYAL SHOW PANSIES. 1st Prize, \$50.00; 2d Prize, \$25.00; 3d Prize, \$15.00; 4th, 5th, 6th, 7th and 8th Prizes, \$10.00 each; 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th and 20th Prizes, \$5.00 each, In all, 20 Prizes-Total, \$200.00.

This is the largest sum of money ever offered for specimen Pansy blossoms and is something worth trying to secure.

Competition open to all my customers who purchase either an 8 cent or 12 cent packet of the "Royal Show." The contest closes Oct. 15th, 1896, at 6 p. m., when the prizes will be immediately awarded the successful competitors. All blossoms must be carefully pressed and mailed to me before this date, with the name and full address of the sender on back of "Competition Envelope," which accompanies each order. In case there are several flowers received of exactly the same size, Beauty and Markings of the flowers will take first place. Heretofore, I have limited the number of prizes to ten. This season I double the number, which gives ten more chances to premium winners and I trust that every one of my pansy lovers will enter the contest this season and break the record of 2% inches by a blossom measuring at least 3% inches across, which I am satisfied can be accomplished with a favorable season.

FIRE KING PANSY.

This novelty comes almost absolutely true, scarcoly a plant bearing flowers at variance from the type, which is very distinct and striking. The three lower potals each have a large blotch of deep brown-red or magenta margined with yellow, while the upper petals are of a bright reddish brown, of a real fiery shade. Warranting the name FIRE KING. Pkt., 100 seeds, 6c.

SNOW QUEEN PANSY.

Pure sating white with yellow dot in center of flower, sometimes marked near center with faint bine or purple lines; altogether the least picturesque of any of the different classes of Pansies, it is very highly prized by a great many pansy lovers for just that reason. Pkt., 100 seeds, 6 cents.

METEOR PANSY.

Color bright canary-yellow; the three lower petals are varlously spotted with mahogany-brown, while the two upper petals vary from reddish-brown to dark purple, narrowly margined with gold or sliver. Pkt., 100 seeds, 6 cents.

PEACOCK PANSY.

A heautiful variety of nitra-marium blue in the upper notals of the flower, edged with a thin white line, within which is a space of purplish-erimson, passing into a rich contral hioteli of deep blue, studing to hlack, named "Peacock" because the blending colors resemble the feathers of a peacock. Pkt., 100 seeds, 6c.

NEW IMPERIAL GERMAN PANSY.

This mixture embraces seed of over fifty colors and markings, and is guaranteed to equal any strain offered as Imperial German. Pkt., 100 seeds, 6 cents.

NEW GIANT PANSY.

Remarkable for the extra large size of the flowers, which, however, are not so circular la form as the "Imperial Gorman" or the "Royal Show." Pkt., 100 seeds, 8 conts,

PANSY.

GOOD MIXED. Fine for bedding, many rich colors. Pkt., 100 seeds, 3 cents.

The perfume of the Violet: the beauty of the Pansy.

This new class is the result of crossing the Pansy (viola tricolor) with the Sweet Violet (viola cornuta); the resulting hybrids, in addition to retaining the delightful Violet perfinne, produce the most heautiful Pansy-like blossoms, 2 to 2% inches across, of great substance and of an endless variety of colors-white, lemon, orange, claret, crimson, marcon, lavonder, purple, silver gray, rese, black, hluo, tinted, striped, blotched, etc.

The plants are easy of culture, of hardy, vigorous growth, forming deep rooting, compact tufted dumps, Planted in masses or lines, they form perfect mats covered with myriads of flowers. They are more personal in character than Pansles, throwing out new roots annually, adapting them, where situation and soil are congenial, to permanent beds, edgings, etc., where they begin to make our garden gay in spring almost when surrounded by snow, and continue to bloom with marvelous freedom until Autumn. The flowers are horno on long stems which shoot up like the violet directly from the roots, rendering the flowers of special value for cutting purposes. They are not all equally fragmant, though the majority are as highly scented as the sweetest Violet, and the other high merits of this new strain, aside from their perfume, destine them to wide popularity. Mixed colors. Pikt., 100 seeds, 8 ets.

PETUNIA, HYBRIDA, Finest mixed.

A splendld mixture, ombraeing all colors, including striped and blotched varietles. They are excellent for bedding or massing, remaining in bloom the entire summer. Pkt., 100 seeds, 6 cents.

PETUNIA, HYBRIDA, Good mlxed.

Many colors and a good bedding variety. Pkt., 100 seeds, 3 cents,

PETUNIA, DOUBLE.

Finest varieties carefully feeundated with best double flowers, and will produce from 25 to 40 per cent. of double flowering plants. Somedouble, fringed iu all shades of colors existing in Petunias, and the biossoms that come single will be of the grandiflora type. Pkt., 30 seeds, 14 cents.

PETUNIA, LADY OF THE LAKE.

Some magnificent double, pure whito, beautifully fringed, cau be obtalued from this strain. Very valuable for taking euttings from. for greenhouse decoration or bedding. Produces about 20 to 30 per cont. of doublo flowers. Pkt., 30 seeds, 20 cents.

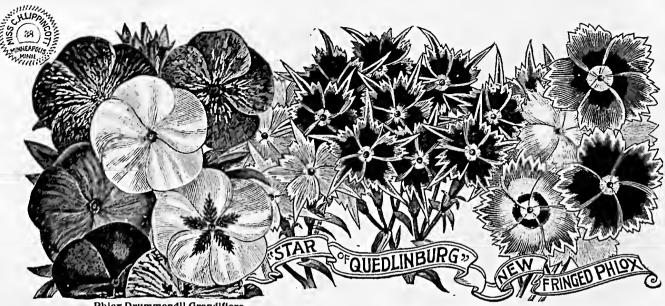

NOTE.—A double Petunla rarely seeds, and, consequently, the pollen has to be taken from a double flower and be upplied to the stigma of a single flower, having previously removed the latter's own pollen, the single-flowering plants producing the seed. In this way the bilood of the two parent plants is blended in the progeny, and, in consequence, the seeds gathered are bound to produce some single us well as double flowering plants. The weaker seedlings usually prove to be the doubles.

Mrs. A. B. North, Canalag, Nova Scotia, March 19, 1835, writes:—Had your seeds last seasen and was very much pleesed with them, Your Pansies, Asters, Petuaias, Phiox and Vorbonas are the finest I have ever grown.

PETUNIA GRANDIFLORA.

The largest flowering and richest colored variety in cultivation. Single flowers frequently measure over live inches in diameter, rullied or fringed on the edges and beautifully veined, with various shades of jurpie, rese, lavender, yellow and crimson. Few flowers equal the Petunia for brilliaut display, being of the easlest culture and very profuse bloomers from June until frost. Pkt, 100 seeds, 12 cts.

Phiox Drummondll Grandifiora.

PHLOX DRUMMONDII GRANDIFLORA.

Their long duration in bloom, combined with their almost unequalicd richness of color, renders them of invaluable service in the flower garden, and a finer sight than a bed of Phlox Drumnondli is rarely to be seen. The colors range in every concelvable shade; producing flowers twice the size of common Phlox. Height 1 foot. Pkt., 100 seeds, 4 cents. Large Pkt., 200 seeds, 6 cents.

PHLOX DRUMMONDII, Good Mixed.

Invaluable for bodding and cut flowers, an exceilent strain, Pkt., 100 seeds, 3 cents,

HORTENSIA FLOWERED PHLOX.

These are undoubtedly one of the handsomest species of the Philox family. The flowers are borne in large umbels, just like a Hydrangen. Pkt., 100 seeds, 6 cents.

STAR OF QUEDLINBURG PHLOX.

This unlque variety is of extraordinary character, the flowers appear to have a star-like form, thus producing a most brilliant effect, finest mixed from over 20 colors. Fkt., 100 seeds, 6 cents.

NEW FRINGED PHLOX.

A distinct variety of great beauty, the petals being partly fimbriate and partly three-toothed, all distinctly bordered with white, over 20 distinct shades mixed **Pkt.**, 100 seeds, 6c.

PHLOX, PERENNIAL. Cholcest mixed.

The varieties of the peronnial Phlox are among the cholcest of our flowers for bedding and horder plants. They are hardy and need no protection; will flourish in any soil, succeeding better, however, in deep, rich, rather molst ground. Pkt., 25 seeds, 6 cents.

Poppy, The Shirley. POPPY, THE SHIRLEY.

It is perfectly hardy and flowers the first season from seed. The flowers are large, exceedingly gruceful and elegant; the colors are pure, soft and varied, and range from bluish-white rose, delicate pink and carmine, through innumerable thits to bright, sparkling crimson. Pkt., 200 seeds, 4 ets.

NEW CARDINAL POPPY.

The dwarf, very robust, and compact liablt of growth of this new Poppy makes it entirely distinct from most other doubic Poppics. The plants grow about sixteen inches high, and are well furnished with deeply-cut dark green foliage, which shows off the enormous, double, glowing, cardinal-scarlet liowers. On close inspection, each of the perfectly fringed petals will be found lined with white, while on the back of the flower a white Maltese cross stands out in sharp relief. Pkt., 200 seeds, 4 cts.

Miss Mabel Gego, Fitch Bay, Caneda, April S, 1895, writes: We have had splendid success with your seeds for the past two years.

NEW POPPY, WHITE SWAN.

One of the most effective and valuable Popples In troduced for years. The plants are about 18 Inches high, grow In very pretty bush form, crowned with flowers of enormous size, perfect form. very double and of the purest snow-white. Its llowerning period is considernbly longer than that of other Poppies. Pkt., 200 seeds, 4 ets.

Miss Nottle Olark, Hamlot, Ohio, March 1, 1895, writes: 1 purchased seeds from you last year and nover had them to gormlinate and grow better. As honesty is admirable and desorves reward, I send my order agaia, and the ugh small, carries best wishes to an energetic woman for success.

coss. Lillian G lo vor, S to lla, Wish., Jau. 18, 1836, writes: The flower scools that I recolved from you inst sonson wore satisfactory, especially the Sweet Peas and Asters.

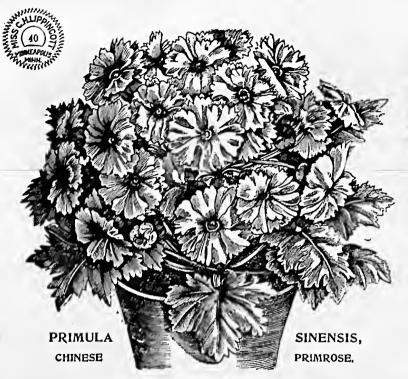

Double Popples-Mixed.

DOUBLE POPPIES MIXED.

For dazzling richness and variety of colors, the flowers are unequalicd. Simply scatter the seed in the open ground and a mass of beanty will result which will be a constant source of pleasure. Pkt., 200 seeds, 3 ets.

ICELAND POPPIES.

These fine perennial Poppies produce flowors in great abundance the first year from seed. The colors range from the purest white and yellow to the deepost glowing orange scarlet and have a delicious fragrance. For vase or house decorations they rank among the loveliest. Mixed colors. Pkt., 100 seeds, 6 ets.

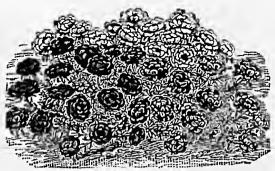

(See Illustration in Colors on Back Cover.)

Many persons seem to think Primulas are successfully propagated only in a green-house, hence we find amateurs often reluctant to attempt their culture. They are unequalled as winter bloomers, easily grown, if the right conditions are observed; and give a succession of flowers throughout the season, and are prized for both their beauty and their dolicate fragrance. Single fringed mixed, pkt., 30 seeds, 8 cents.

PRIMULA, DOUBLE.

Best mixed of all colors. Pkt., 20 seeds, 16 cents.

Double Portulaca.

PORTULACA, DOUBLE FLOWERED.

One of the most showy and beautiful annuals, with abundant, highly colored flowers. For baskets, beds, masses or edging it is invaluable. The plant is dwarf and tralling; about slx inches high. It requires scarcely any water and succeeds best in warm, sandy soil.

NGTE-Portulaca cannot always be depended upon to como DOUBLE, about 60 to 70 per cent. being a fair average of double flowers. The seed I offer has been saved with extra care from the finest colors and will give a good proportion of double flowers. Pkt., 300 seeds, 4 cents.

PORTULACA, SINGLE.

A great variety of colors mixed. Pkt., 300 seeds, 3 cents.

PRIMULA OBCONICA.

Primula Obconica is a profuse flowering Primrose, and is as near an ever-blooming plant as it is possiblo to obtain. It is beyond doubt one of the finest plants for pot culture ever introduced, and cannot fall to become a favorito with those desiring plants that will grow casily. The flowers are PCRE WHITE, SHADING TO LLAC, and have the true PRIMROSE FRAGRANCE. The plants produce, on long stems, spikes with from 10 to 15 flowers each. It has been known to flower for over tweive months without a break. Pkt., 30 seeds, 4 cents. RICINUS ZANZIBARIENSIS. An ontirely now class from A frica, with leav's often measuring 2 feet across; the seeds are marbled, speckled and spotted; the illustration shows natural size. Pkt., 6 seeds, 6 cents.

RICINUS, CAMBOGIENSIS. (Castor-Oil-Bean.)

Growing from 6 to 8 feet high in a few woeks from time of planting, with largo paim-like loaves of a brillant, brouzy-red marcon color, with largo red voins. The leaf, stems and youngor growth aro of rich reddish brown, while the main stem, or trunk, is of obony black. It is one of the finest plants for tropical offects, oither in masses or as single specimens, on the lawn or garden. Pkt., 6 seeds, 6

> RICINUS. (Castor-Oil-Bean.) Many choice varieties mixed, Pkt., 5 seeds, 3 cents.

STATICE SUWAROWI.

By far the fluest of all annual Statices, and indeed one of the showlest annuals we possess. Its branching llower spikes, of a very bright rose with a crimson shade. appear successively from 10 to 15 on each plant, and measure each fully 15 to 18 inches in length, and from 1/2 to 1 luch in hreadth; the folingo lying list on the ground is comparatively small and complotoly hidden hy the numerous liower splkes. One plant will last In llower more than two months, and if sown in succession it may be had constantly llowering throughout the summer and autumn. Pkt,, 100 seeds. 4 cents.

Lovi T. Campbell, Kelton, Utah, Moroh 1885, writes: I have tried your seeds and pronounce thom as good as any I ever plonted, and by far the cheapest.

(Volubile.)

A splendid climber, growing about ton feethigh and a pretty subject for trollises. The llawors are about two inches long, curlously formed and of a rich clinet rod and hang on long graceful stoms. It llowers freely from seed the first stason. Pkt., 20 seeds, 12 conts.

Ricinus Zanzibariensis.

Mrs. Jas. W. Prichard, Shatersville, R. I., March 26, 1805, writes: I am vory much pleased with your flower seeds; from one packet of Glozinia 137 plants came up ond I have lost three out of that number; set out 75 Pansy plants from one pecket of seeds; hod Sweet Peas until the vines froze in November.

Salpiglossis.

SALPIGLOSSIS, GRANDIFLORA.

The graceful flowers, borne on long stems, range in winter; in color from the most delicate shades of light blue hanging bas and straw color to the deepest purple and richest seeds, 6 cts. brown and maroon. The quaint funnci-shaped flowers somewhat resemble those of the petuila, and are borne on long stems in great profusion. The metailic gloss and distinct veining of the petais present almost the appearance of jeweled enamels. Large Flowering Mixed, ptt., 150 seeds, 4 cts.

D. M. O'Driscoll, Managor, Wost. Union Tel. Co., Charleston, S. O., Jan. 15, '65, writes:-The seeds purchased from you hast your gave entire satisfaction, and I am sure you desire no initer oyidenco of the fact tinn the enclosed order for OVER J'OlfTY different kinds of soods. Your plan of counting the number of seeds in a packot is vory commandable and bonefits the purchaser. I wish you great success.

Smilax.

SMILAX.

One of the most desirable window vines on account of its charming, glossy green, elegant and graceful follage, and wili grow several feethigh the dirst season. Started in the spring it affords elegant trellis plants for the house in winter; also fine for hanging baskets. Pkt., 50 Beeds, 6 cts.

Schlzanthus,

SCHIZANTHUS. (BUTTERFLY FLOWER.)

Elegant and very free blooming annuals; of much interest and beauty, and when woll grown rival in singularity of colors and markings of the orchids, large flowers spotted with crimson, lilac. purple and yellow, and the petals are cutin a picturesque manner. In potsin the conservatory or house few plants are more attractive; also elegant in a bouquet or vase, and fine for bedding. Pkt., 100 seeds, 3 cts.

SCARLET SAGE, (SALVIA SPLENDENS.)

One of the grandest plants in cultivation-a bed of them surpassing the finest scarlet ger-aniums in brilliancy and continuous blocu, the flower spikes often measuro ten te tweive inches in length, and there are as many as two hundred solkos on a well grown plant. From the tlme they first bogin to flower, the plants are never out of bloom until killed by late frasts. It is easily grown from seed and the purchase of plants should be abandoned. Pkt., 20 seeds, 4 cents.

SALVIA FARINACEA.

The plants form dwarf, compact bushes, with long spikes of beautiful blue flowers, which makes a charming contrast when grown with the scarlet described above. Pkt., 35 seeds, 6c. colors. Pkt., 50 seeds, 3 cents.

SNOWBALL SCABIOSA.

The flewers are very large, measuring fully two inches in diameter, of nurest white and very double. It comes quite true from seed. Pkt., 50 soeds, 6 cents,

SCABIOSA, DOUBLE BLACK.

A now variety with elegant double black-purple flowers-se deep In color as to appear nearly coalblack. Pkt., 25 seeds, 6 cents.

SCABIOSA .- Mixed double, all

SOLANUM, (JERUSALEM CHERRY.) A miniature orange tree, cevered all winter with a profusion of scarlot fruit. The fullago is very beautiful, but the fruit is the chief attraction. Pkt., 50 seeds, 4 conts,

SWEET ROCKET, (HESPERIS.)

The Sweet Recket preduces clusters of flewers which are very fragrant during the evening. The seed rapidly germinates in the enen ground with very little care. Hardy percunicl, one and a half feet high. Pkt., 100 seeds, 3 cents.

M. M. Briggs, Glanwood, Wis., Oot. 7, '95, writeen The "Anchusa Capensis ' were the wonder of our villago for bloom, and 1 never saw larger or finer Petunins.

THE ST SWEET SWEET SWEET SWEET SWEETS

APPLE BLOSSOM.-Bright rosy pink standards, blush wings. Pkt., 40 seeds, 4 ets.; oz., 12 ets.

BLUSHING BEAUTY.-Very line and extra large; rich, soft fleshy rose, of very large expanded form. Pkt., 40 seeds, 4 ets.; oz., 12 ets.

BOREATTON.—One of the most distinct varieties, with splendid large, deep dark, maroon blossoms, rich and velvety. Pkt., 40 seeds, 4 cts.; oz., 12 cts.

BUTTERFLY.--Standards and wings white, faintly suffused lavender; entire flower edged with blue. Pkt., 40 seeds, 4 ets.; oz., 12 ets.

DUROTHY TENNANT.-Standards. deep rosy-mauve; wings bluisir-mauve. Largest expanded form. Pkt., 40 seeds, 4 cts., oz., 12 cts.

. FIREFLY.—The best and brightest of all the scarlets. Standard liery scarlet, wings or imson-scarlet. Pkt., 40 seeds, 4 cts.; oz., 12 cts.

GAIETY.-Of largest expanded form; long stems; bright and lively stripes of crimson on white ground. Pkt., 40 seeds, 4 ets.; oz., 12 ets.

INVINCIBLE STRIPED .- Pkt., 40 seeds, 3 cts., oz., 10 cts.

fig5. GLADSTONE.-Standards. soft blush pink, wings suffused with a deeper carmine pink. Pkt., 40 seeds, 4 ets.; oz., 12 ets.

MISS BLANCHE FERRY.-The flowers of this new Sweet Pea are of the largest size, perfect in form and in color, a beautiful combination of pink and white; very fragrant. Pkt., 40 seeds, 3 cts.; oz., 10 cts.

PRIMROSE.—Distinct as the nearest approach to yellow in Sweet Peas; of a pale primrose-yellow color. Pkt., 40 sccds, 4 cts.; oz., 10 cts.

PRINCESS OF WALES.—A distinct variety, shaded and striped with mauve on white ground. Pkt., 40 seeds, 3 cts.; oz., 10 cts.

PURE WHITE.—Extra large flowers, selected stock. Pkt., 40 sccds, 3 cts.; oz., 10 cts.

THE SENATOR.—Chocolate and bright brown striped on creamy-white ground, mottled and blotched in every manner. Pkt., 40 sccds, 4 cts.; oz., 12 cts.

VENUS.—Of the largest expanded form; color a rich salmonbuff. Truly an exquisite variety. Pkt., 40 seeds, 4 cis.; oz., 12 cts.

BEST MIXED.—Owing to a special domand for all the new and finer named varieties, I have selected all the large flowering and most distinct sorts, especially for those that can afford to pay for the searce and rarer varieties that heretofore have been too expensive to include in a mixture, including the above sorts, in all some 25 or 30 named varieties. This I call my BEST MIXED, and I can particularly recommend it as extra choice and fine. Pkt., 100 seeds, 6 cts.; oz., 12 cts.; ½ Ib., 28 cts.; Ib., 95 cts.

FINE MIXED.-(California Grown.) Pkt., 100 seeds, 4 cts.; oz., 8 cts.; 14 lb., 22 ets.; lb., 65 cts.

GOOD AIXED.-(Imported). Pkt., 75 sceds, 3 cts.; oz., 6 cts.; 4 lb., 15 cts.; lb., 40 cts.

TORENIA, WHITE WINGS.

A very fine annual, unusually attractive, flowers white with sometimes a tinge of binsh yellow throat. Very ylgorous and free flowering, forming a splendid plant for pot culture, vases and hanging baskets, or in the open ground in beds or masses. Pkt., 100 seeds, 4 cents.

> TORENIA, FOURNIERI. Lovely, velvet-blue flowers, with three large spots of darkest blue and a bright yellow throat. The plants are covered with one mass of bloom until frost, Pkt., 100 seeds 4 cents.

THUNBERGIA. BLACK-EYED-SUSAN.

Vory elogant, slendergrowing elimbers, rapidly covoring wire trollises and also use ful for vases lu the gurden or house. They ean also be grown without support und one plant will form a beautiful mut three to four feet In dlameter. The colors are pure white, light vellow upd deep orange.

Mrs. Ed. S. Teeker, North Lansing, Mich., March 1, '95, writes: The Astor souds received from yeu last year preduced elegant bloem, the flowers being perfect und very large. I had as nice a beit as could be found und it was the admiration of overybody. All ethor seeds were sutisfactory and osme true to nnme nud perfect bloom.

Largest Floworing Stocks. STOCKS, TEN WEEKS.

The largest Flowering Globe Pyramidal. Immonso splices of perfectly double flowers, pyramidal in shape, the individual blooms frequently measuring from 2 to 2½ Inches In dlameter, runglug in colors from crimson, roso, whito, bluo, Illae, brown and yellow. They are greatly prized for cut flowers on account of their fragrance and diversity of colors. Pkt., 50 seeds, 6 cents.

STOCKS, DWARF GERMAN TEN WEEKS. Fine mixed. Pkt., 50 seeds, 3 conts.

Sweet William. SWEET WILLIAM, (DIANTHUS BARBATUS) The Sweet William is one of the finest flowering and of each color there plants among the hardy perennials, three years be- is a variety with white ing about the length of time it can be depended on eye and also with black for good flowers, and consequently, to keep up a eye. They continue in supply, a sowing of seed should be made at least flower all summer. every other your. The flowers have a wide range of Mixed. Pkt., 15 seeds, intgit colors and varied markings, including the 3 conts. finest aurienly eved varieties. Single and doublo mixed. Pkt., 100 seeds, 3 cents.

STOCK, WHITE PERPETUAL. (Princess Alice.)

The individual flowers are uncommonly large, of a fine, rosotte-like shape, and of the purest possible white. If sown early will produce a great abandance of bloom from June until November. Pkt., 40 seeds, 8 cents.

M1ss Edna M. Bell, Signal, Ohio, April 17, 1895, writes: We have olwoys been ploased with your flower seeds, especially the Punsies which are lovely and very inrge.

Mammoth Verbena. MAMMOTH VERBENA.

Flowers of unusual size, single flowers sometimes being as large as a twenty-five cont plece, while the clusters of bloom aro mag-nillcent, and the range of color moro vivid than in any other mix-ture. For garden beds or massing the Verbona is unrivaled; llowors of the most brilliant color, blooming continually from spring until late in the autumn. Although perenalals, they bloom pro-fusely the lirst senson from seed. Pkt, 50 seeds, 6 cts.

LEMON VERBENA.

This elegant, fragrant plant is easily grown from seed and succeeds well anywhere. Have a good bed of It in the garden over summor, that you can cut Its fragrant foliage and flowers to mako up with bouquets. Pkt., 50 secds, 4 cts.

VERBENA HYBRIDA. Fino mixed, from a spiendid

rauge of colors. Pkt., 40 seeds, 3 cts.

VIOLET. (VIOLA.)

Tho Violet should not be wanting In any garden, on account of its fragrance and early appearance. A single flower will perfumo a whole room. Succeeds best In a shady, sbeitered place, and can bo easily increased by dividing the roots. Finest-mixed. Pkt., 100 seeds, 4c.

VERBENA ODORATA.

This lovely Verbena is hardy, and seed may be sown in the open ground early in the spring. Tho blossoms. Instead of being in clusters. run up into spikes three to four Inches long and Is very seeds. 3 ets.

Mrs. W. C. Johnston, Turner, N. Y., Mch. 9, '95, writes—This will be the third year I have used your seeds and I find them very satisfactory.

VINCA ROSEA.

A free flowering perennial, with glossy green follage and beautiful circular flowers of a fine rose color. If sown carly under glass, and transplanted in a warm situation, will bloom in the summer and autumn, and may be potted for the house before frost. Pkt., 50 seeds, 3 cents.

ZINNIAS, DOUBLE LILLIPUT.

Dwarf, compact bushes, bearing very small, perfectly (double, pompon-shaped flowers of the brightest colors, which cover the plant during the entire summer and until frost sets in. The flowers embrace a wide range of both light and dark colors, evenly distributed. Pkt., 40 seeds, 6 cents.

ZINNIA.

Choice double mixed. Pkt.; 40 seeds, 3 cents.

A Beautiful Lawn,____

With its close velvety turf, is a most essential feature in the adornment of all suburban homes—without it the finest flowering plants and bedding seem insignificant, while with it handsome grounds are assured, ovcu with no other adornment. About April 1st is the best time to make a lawn.

LAWN GRASS SEED

is composed of a mixture of Grusses best adapted to preduce a permunent and fine turf, so that a rich deep green, veivety lawn is constantly maintained.

Finest quality. Qt. 23 cts.; 2 qts. for 40 cts. Good quality, Qt. 15 cts.; 2 qts. for 28 cts.

A quart will sow about 300 square feet.

New Giant Zinnias.

NEW GIANT ZINNIAS.

A new class of Zinnias, giant in size and perfectly double flowers of the richest and most varied colors and shades. The plants grow about three feet high and bloom freely during a long period, making them particularly valuable for large groups. Pkt., 50 seeds, 6 ets.
